

Why us?

We focus on aligning around common goals, building effective working relationships, finding solutions to team problems, and building trust by engaging in activities together which are not part of the regular routine of the team. This program is perfect for corporate groups, sports teams, family groups, military units or any group of people that want to achieve these outcomes while having fun outdoors. Team building improves performance, interpersonal relations and teamwork amongst the group.

Are you interested in getting your team out of office for a fun and productive day bonding on the island? We offer activities on and off the water and create an inclusive environment where everyone can participate and enjoy at their own pace.
